**We are currently seeking a detail oriented individual to join our Machine Shop as a mid-level Machinist.**

### Position Summary

This is a mid-level position. With minimal supervision, the responsibilities include light programming, set up and operation of CNC machinery (primarily mills - Haas) for small production runs. The operator ensures that the machine has the proper program and necessary tooling installed for each new job. And, will also make program adjustments as needed to correctly run the job. After the job's components have been run, CNC machine operators ensure that they meet specifications and verify their quality. Operators will be required to verify parts are within tolerances. This position's responsibilities also include secondary operations (deburring, drilling, grinding), manual machining activities for short production runs and some prototype part machining. This involves building jigs / fixtures as needed for setup, machine setup, machining parts to print, and machining purchase-alter parts to print. The machinist will verify parts are machined to print and are within stated tolerances. A machinist will operate small mills, lathes, drill press and grinders.

### Specific Responsibilities

- Job setup on CNC mills for production and prototype runs
- Small quantity production runs - parts loading / unloading
- Checking / qualifying finished parts
- Secondary ops - i.e. parts deburring, grinding, cutting, drilling, reaming
- Cleaning or removing metal chips
- Daily cleaning and maintenance
- Weekly preventative maintenance
- Manual machining

*Machinist (continued)*

### Skills and Knowledge

- High school diploma or GED are required. Education past high school preferred.
- Experience with manual machining required
- 3+ years machine shop experience required
- Experience with CNC machining preferred
- Must be able to read and interpret blueprints
- Must be familiar with production machining processes
- Must be familiar with standards for machining materials – i.e. tooling capabilities – speeds and feeds, etc.
- Must have applied math skills
- Must be safety conscious
- Must have good communication skills
- Must display a supportive and engaging attitude
- Must be a self-starter, dependable, and committed to continuous improvement.
- Other duties as assigned by management

### Other Requirements

- Must be able to travel on an as needed basis
- Excellent attendance and timeliness required
- Valid driver's license and a driving record that meets car rental and company insurance requirements
- Willing to work over-time as needed
- Ability to sit/stand for extended period of time, with repetitive lifting, stretching and twisting
- Must have own tools
- Ability to lift up to 60 lbs.
