

Entry Level Panel/Machine Builder

Red Stamp, Incorporated is a leader in providing innovative machinery solutions for material handling. Our Reliable, Efficient, and Durable products are best-in-class and proven to provide substantial return on investment for our customers.

Red Stamp Inc. has a history of product innovation and market leadership. We were named one of the nation's fastest growing companies. The Red Stamp corporate culture is casual, customer-focused and of high-integrity, with a strong commitment to its employees and customers.

We are currently seeking a detail oriented individual to join our Assembly Department as an entry-level Panel Builder.

Position Summary

This is an entry-level position. Red Stamp is looking for someone with basic electrical and mechanical knowledge who is eager to be trained and grow their career as a panel/machine builder. The position's primary responsibility is for building production machines from assembly drawing including all mechanical, pneumatic and electrical aspects. The complete 'build' will be done in stages; sub-assembly build, assembly build, setup and checkout and final inspection testing. The person in this position will become proficient at all stages of the build process for all products. Panel/Machine Builders will use a wide variety of hand-held equipment and tools to perform the build out of mechanical hardware, sub-assemblies, pneumatic components and electrical devices. Build quality and accuracy are paramount.

Job Status

- Full-time, 40 hours per week

Specific Responsibilities

- Perform panel builds; build electrical panels, E-stops, monitors, servo boxes, J boxes
- Wire all required electrical components on panels
- Qualify and/or trouble shoot electrical panels
- Build sub-assemblies, and machinery (cutters, packers, stampers)
- Run-off / Qualify builds
- Other duties assigned as needed (i.e. pallet building, parts qualification, deliveries, building maintenance,)

Entry Level Panel/Machine Builder (continued)

Skills and Knowledge

- High School Diploma or GED required. Technical training or experience beyond high school desired.
- Ability to read assembly level drawings and blueprints.
- Must know English/Metric standards for nuts, bolts, taps, drills
- Demonstrated knowledge of and/or experience in mechanical processes. Basic electrical and mechanical knowledge
- Familiar with electrical schematics
- Must have good applied math skills
- Good communication skills and be able to display a supportive and engaged attitude.

Other Requirements

- Must be able to travel on an as needed basis
- Excellent attendance and timeliness required
- Valid driver's license and a driving record that meets car rental and company insurance requirements
- Willing to work over-time as needed
- Ability to sit/stand for extended period of time, with repetitive lifting, stretching and twisting
- Must have own tools
- Ability to lift up to 60 lbs.

Desired Experience

- PLC, machine build, panel build, and welding experiences desired.
- Machine shop experience (CNC and Manual Machining)

Red Stamp, Inc. offers a competitive salary; benefits package; and the professional advantages of an environment that supports your development and recognizes your achievements. Interested candidates may submit their resume and cover letter to hrresumes@redstampinc.com
