

The Redstamp BTU-6M Case Topper is fully automated for box top removal of 6M cigarette and/or other 6M size boxes. The Case Topper automatically differentiates a 6M case from others, and allows it to pass through uninterrupted. A 6M cigarette case and other case's precut top is automatically removed and sent to a trash line, where the tops can be bundled for disposal.

The Redstamp BTU-6M has a compact, modular design allows for greater flexibility in system layout. This unit is stand-alone. However, it will easily integrate with our Case Cutter and Case Splitter, providing one of the most versatile systems available in the market.

The Redstamp BTU-6M handles 7-8 6M cases per minute during normal operation, and easily keeps up with our case cutter's output and employs the latest in technology for dependable and maintainable equipment.

FEATURES

- ☐ Case Tops Are Disposed at a Rate of 7-8 per Minute.
- ☐ Heavy-Duty Construction.
- ☐ Modular Design.
- ☐ PLC Controlled, for Ultimate Flexibility.
- ☐ PLC is Remotely Accessible for Updates and Troubleshooting.
- ☐ Fully Automated Operation.
- ☐ Color Touch Screen Operator Interface.
- ☐ Powder Coated Frame for Long Life.
- ☐ Integrates with our Case Cutter and Box Splitter Units.
